ABOUT ME

I'm a passionate full-stack developer with a focus on building scalable and efficient web apps using Next.js and JavaScript. I've worked on a variety of projects, including chatbots, task management tools, and AI-based solutions. I enjoy solving real-world problems with code and am always learning new things to level up my skills and build smarter software.

PROJECTS

It allows users to log in securely, add tasks with due dates and mark them as completed. With cloud-based storage using MongoDB Atlas, tasks are always accessible, and authentication is handled securely with NextAuth.

Task Manager - TickIT
